Introduction

This poster template is a #BetterPoster template, modified from the latex code available from Overleaf at https://bit.ly/overleaf_original.

More information about #BetterPoster can be found in the original Youtube video at https://bit.ly/better_poster_youtube, or from online sources including https://bit.ly/blog_summary.

Assumptions

Let's add, a new diagram:

Method

Here is an itemized list:

- The first item.
- The second item.
- The third item.

Proof

According to the **Fundamental Theorem of Calculus**, if f is continuous on the closed interval $[a, b]$ and F is the indefinite integral of f on $[a, b]$, then

$$\int_a^b f(x) \, dx = F(b) - F(a). \tag{1}$$

Therefore...

Results

Here's a table:
